

## Ramset TS750P Powder Actuated Universal Strip Cartridge Tool

### Easy to use, cordless and efficient

The TS750P is a reliable strip load tool with power adjustment for fixing timber framing to concrete and general repetitive contract work.

### Product Advantages

- Fast - single shot semi-automatic tool with auto extraction and indexing of charge during retraction of piston
- Safe - trigger mechanism does not engage until nail guide is fully depressed
- Over 70 power level settings
- Universal piston. User does not have to change the piston when fixing into different substrates
- Lightweight allowing ease of use overhead and has in built thermal insulation to improve operator comfort
- Flexibility - the TS750P has a 90mm fastener capacity
- "Twist - Lok" system making it one of the easiest tools to clean and maintain

### Kit Contains

Ramset TS750P, safety goggles to EN166:B, cleaning cloth, cleaning brushes, lubricating oil, piston removal rod, spall shield and instruction manual

### Substrates

- Concrete
- Steel
- Masonry

### Tool Specification

Weight	2.5kg
Overall length	380mm
Impact force	260J
Power levels	Adjustable / 70 settings
Energy	10 load strip green, yellow and red
Operation	Semi automatic
Nail capacity	90mm (100 pre-driven)

### Applications

- Fixing timber to concrete and steel
- Fixing profile steel decking to steel
- Fixing drywall track systems to concrete and steel
- Fixing fire protection systems to steel
- Threaded pin applications to steel
- Fixing frame clamps to structural steel
